REMARKS/ARGUMENTS

The Examiner is thanked for his attention to this application.

Applicant has made the requested amendments to the specifications.

Applicant thanks the Examiner for indicating that claim 3 and claim 10 are allowable.

In response to the Examiners indication that claim 3 is allowable, applicant has amended claim 1 to include all of the limitations of claim 3.

Thus, claim 1 is claim 3 rewritten in independent form including all of the limitations of the base claim and any intervening claims and therefore is allowable. Furthermore, claims 2, 4-10, and 17, which are dependant on claim 1, are also allowable.

In response to the Examiners indication that claim 10 is allowable, applicant has amended claim 10 in independent form including all of the limitations of the base claim and any intervening claims. Thus, claim 10 is now allowable. Furthermore, claims 2, 4-10, and 17, which are dependant on claim 1, are also allowable.

Claim 13 has been amended to include all the limitations of claim 3. Applicant believes this amendment should render claim 13 allowable. Furthermore, claims 14-16 which depend from claim 13 should also be allowable.

These amendments are made solely for purposes of expediting prosecution and do not indicate agreement with the rejections of the Examiner and applicant reserves the right to prosecute the original claims in a continuation application. These amendments are made without prejudice to any of the original claimed invention.
